

If the role of prosecutors is to hold people accountable for breaking rules, why are they allowed to break the most basic rules of their profession without accountability? We need #AccountabilityNY!

Prosecutors in #NY abuse their power and break basic rules just to win cases. #AccountabilityNY

Long:

Prosecutors in New York have immense power in the criminal legal system, which means that they can have a disastrous impact on our lives when they break the rules. In fact, a recent study by the National Registry of Exonerations found that 1/3 of 2,400 exonerations included prosecutorial misconduct.

What's worse is that even when courts identify misconduct, they rarely hold prosecutors publicly accountable. New Yorkers deserve better.

#AccountabilityNY - a group of law professors with support from @CivRightsCorps - have launched a project shining a light on #prosecutor misconduct. The law professors filed grievances against prosecutors who have committed a wide range of misconduct without public discipline, including hiding evidence, highlighting false testimony, tainting grand juries, and more.
